Originally founded as iMedica

Vision

Vision

- Single application built on single database

aprima
Fusing innovation and care

Vision

- Bi-monthly physician advisory panel meetings

aprima
Fusing innovation and care

Vision

- Guaranteed compliance with governmental regulations to receive stimulus funding

Individuality

Individuality

- Integrated EHR/PM

- EHR only

- PM only

aprima
Fusing innovation and care

Individuality

- Physicians in the same practice can choose the capabilities each needs rather than all physicians having to adopt the same functionality.

  – The pricing reflects this flexibility.

aprima
Fusing innovation and care

Individuality

- Install on your server
  - The practice manages the technology

aprima
Fusing innovation and care

Individuality

- Application Server Provider (ASP) (Software as a Service or SaaS)
  - Aprima manages the technology

aprima
Fusing innovation and care

Speed

Speed

- Optimized for tablet PCs
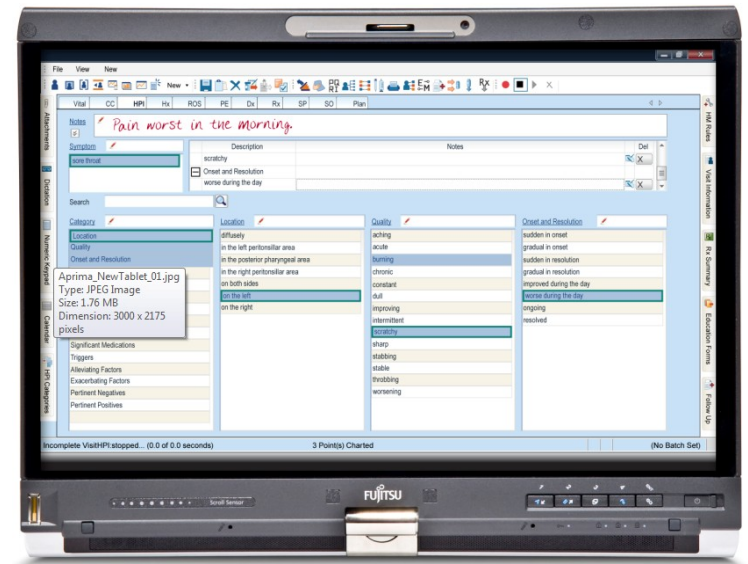

Speed

- Interoperable with payers, hospital systems and devices

aprima
Fusing innovation and care

Care

Care

- Despite individual challenges in adoption, we'll never allow a medical practice to fail.

Beittel-Becker Pediatric Associates

"Aprima does not require you to program your way into it. Instead, it learns how you work and adapts itself to your workflow."

Dr. Greta Laube, MD

9/14/2009

Beittel-Becker Pediatric Associates

"For our small practice of about 14,500 encounters per year, [more accurate billing] alone increases revenues by about $25,000 per year."

Chad Martin
Practice Administrator

9/14/2009
